

YOSO

LANDSCAPING & DESIGN LTD.

YOSO—Landscaping done right.

Your property deserves the best landscaping possible.

- Certified residential landscapers are not common
- Many landscapers aren't qualified to do the work - "fly-by-night" or "Chuck in his truck".
- Often, people have no idea how to build what they want.

We do great landscape installation and design.

Stoneworks

Trees & shrubs

Water & fire features

Woodcraft

Landscape design

You want us to work for you.

COREY

Is a Red Seal Landscape Horticulturist and loves building water features.

ZOE

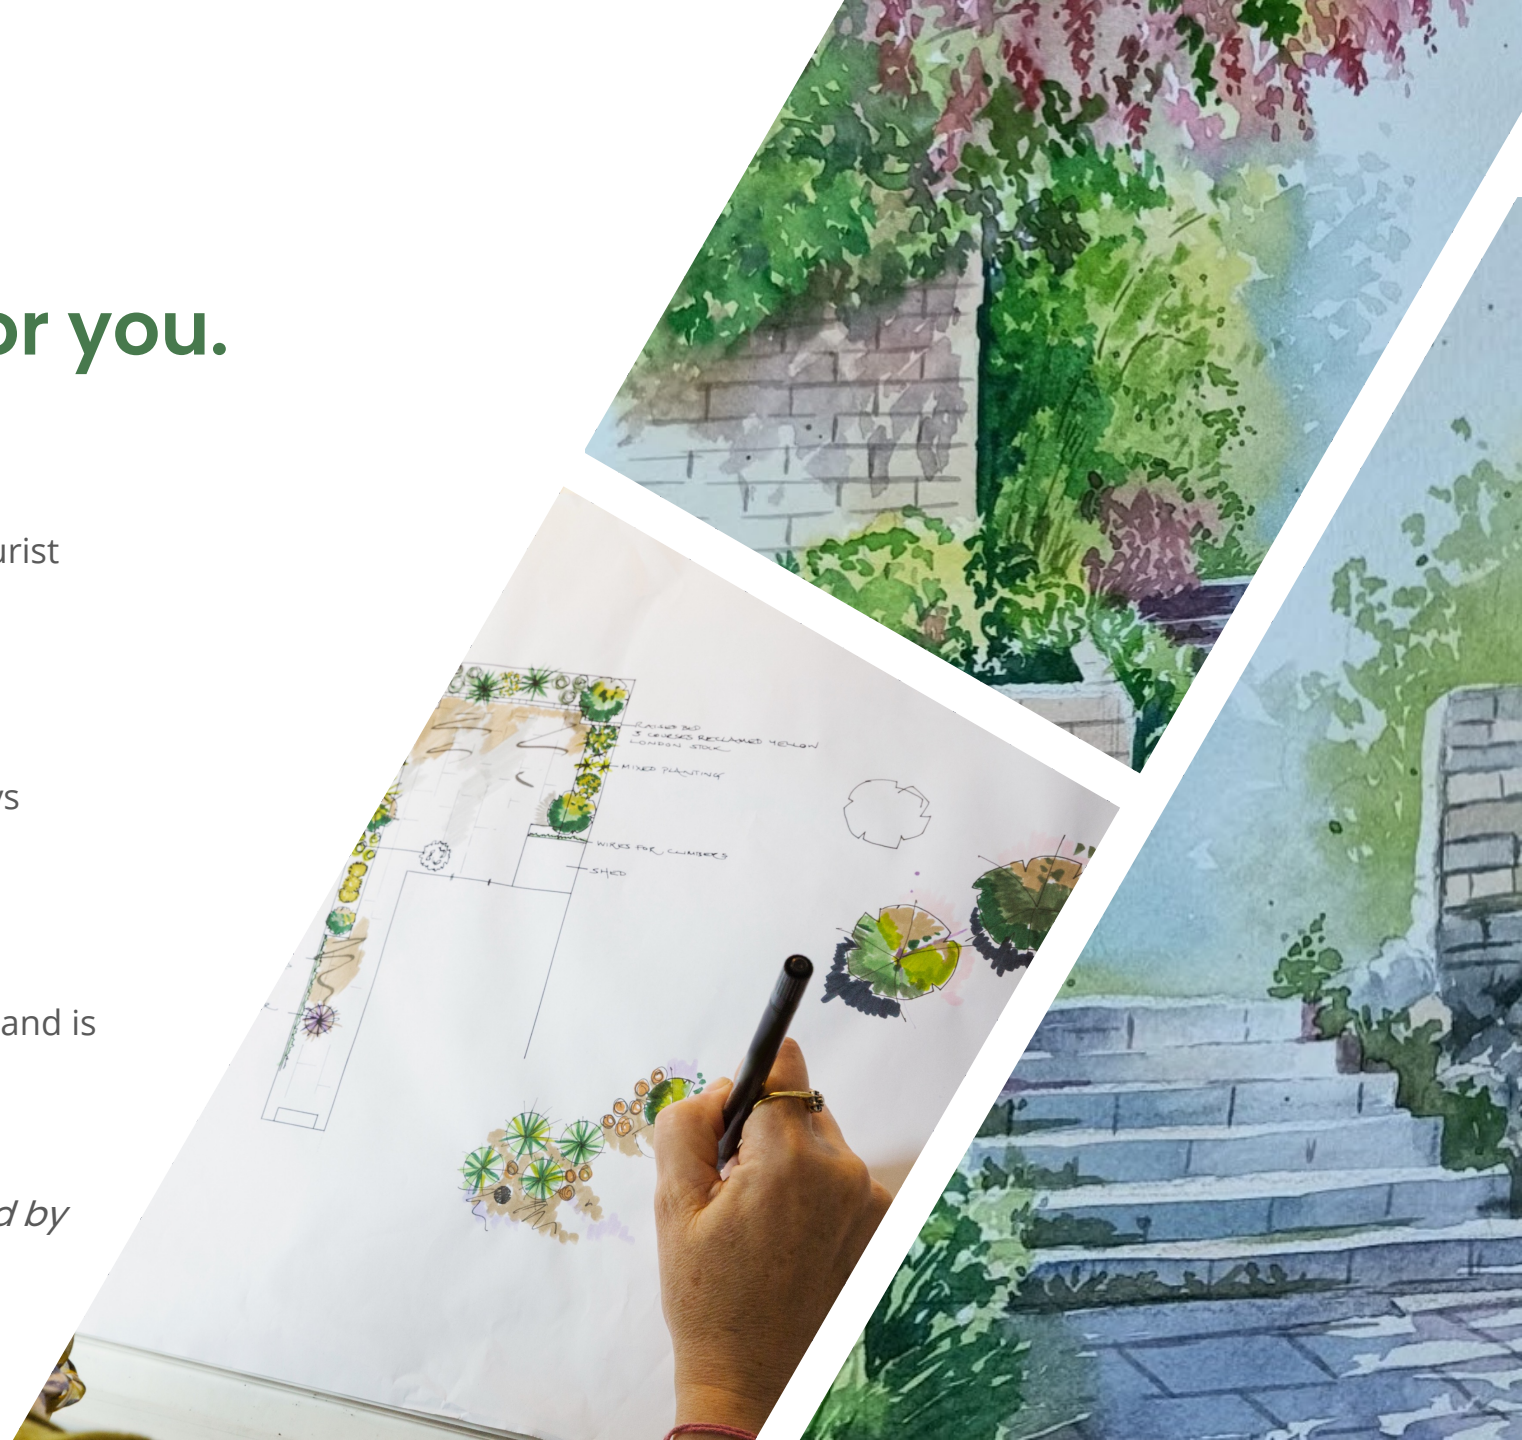

Is a Red Seal apprentice and enjoys creating beautiful gardens.

03.

Wide selection of specialized landscape design services

04.

Formal education in construction techniques, landscape design, and top-tier project management

Customers love our work.

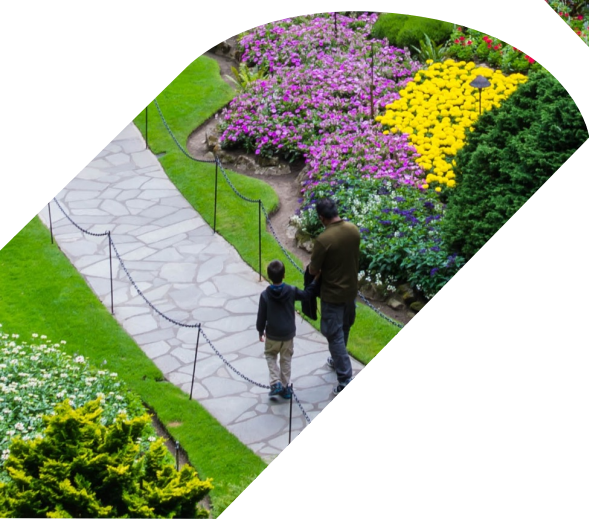

RACHEL M.

EDMONTON

"I had the pleasure of working with Tim and Corey on a large-scale complicated landscaping project for our community in the fall of 2020, with completion of the project in the Spring of 2021. Tim and Corey were instantaneously approachable and quickly became my "go-to" guys when translating the landscape design into reality. The homeowners in our community were impressed by how they kept the worksite clean after each day as well as how hard and efficient they worked. Along the course of the project, I was picky and had a clear vision in my mind of how I wanted the project to be. Corey and Tim were unrelenting in making sure I was satisfied. They made me feel calm and confident throughout the entire process. I would hire them again in a heartbeat for my next project."
