

2005 Bulk Seed Catalogue

Vegetables

Asparagus		This early variety produces large, thick spears. The heads are tight with a hint of purple on the tip. Rust resistant. Excellent for home or market gardens. Roots require 2 to 3 years to establish before harvesting spears. Approximate Seeds Per Gram - 43. Seeding Rate - 30 grams per 100 ft row or 2kg per acre.	14 gr \$4.25	28 gr \$6.50	113 gr \$16.50	227 gr \$29.60	1 lb \$53.30
Martha Washington							
Bean		55 days. Pods are stringless, straight, dark green and fully round to creased back. 12-15 cm (5-16") long, and carried well off the ground. Famous for flavour and yield over long seasons. Valuable crop for freezing, canning and home gardens. Seeds white; resistant to Common Bean Mosaic virus. Slow fibre and seed development. Approximate Seeds Per Gram - 3 to 4. Seeding Rate - 700 to 900 grams per 100 ft row, or 25 to 40 kg per acre.	227 gr \$2.75	1 lb \$3.80	5 lbs (per lb) \$2.55	25 lbs (per lb) \$2.05	100 lbs (per lb) \$1.65
Blue Lake Bush							
Bean		66 days. Plants 1.4 to 2 m (4.5-6") tall. Pods 15-18 cm (6-7") long, round, dark green and meaty. Stringless pods are excellent for canning and freezing. Heavy yielder is resistant to CBM 1. Seeds are white; great as shell beans. Approximate Seeds Per Gram-1-4. Seeding Rate - 300 to 500 grams per 100 ft row, or 25 kg per acre.	227 gr \$3.90	1 lb \$5.40	5 lbs (per lb) \$3.60	25 lbs (per lb) \$2.90	100 lbs (per lb) \$2.31
Blue Lake Pole							
Bean		49 days. Plants 40-45 cm (16-18") high, upright, and compact. The 12 cm (5") golden yellow pods are long, thick, flat, straight and tender. Excellent home garden variety. Heavy yielding, stringless. Seeds white with brown eye. Approximate Seeds Per Gram - 3 to 4. Seeding Rate - 700 to 900 grams per 100 ft row, or 25 to 40 kg per acre.	227 gr \$3.50	1 lb \$4.75	5 lbs (per lb) \$2.90	25 lbs (per lb) \$2.25	100 lbs (per lb) \$1.85
Golden Wax Improved							
Bean		70 days. Plants 60 to 70 cm (24 to 32"). A delicious bean with a flavour of its own. It has large, broad pods. The shelled beans are cooked like ordinary beans. Very hardy; should be planted early. Light brown seed. Approximate Seeds Per Gram - 3 to 4. Seeding Rate - 700 to 900 grams per 100 ft row, or 25 to 40 kg per acre.	227 gr \$3.95	1 lb \$5.45	5 lbs (per lb) \$3.30	25 lbs (per lb) \$2.65	100 lbs (per lb) \$2.10
Improved Broad Windsor							
Bean		65 days. Plants 40 cm (16") tall. Pods are 8 cm (3") with 3-4 seeds. Excellent for freezing and canning. Seeds are small, white and flat. Very productive. Approximate Seeds Per Gram - 3 to 4. Seeding Rate - 700 to 900 grams per 100 ft row, or 25 to 40 kg per acre.	227 gr \$2.70	1 lb \$3.75	5 lbs (per lb) \$2.25	25 lbs (per lb) \$1.80	100 lbs (per lb) \$1.44
Lima, Henderson (Bush)							
Bean		52 days. Dwarf bush plants 35-40 cm (14-16"), upright and compact. Pods 13-15 cm (5.5-6") long, round and straight, golden yellow, stringless and slightly brittle. Heavy yielder, excellent for freezing. Seeds black - tolerates cooler soil for germination. Approximate Seeds Per Gram - 3 to 4. Seeding Rate - 700 to 900 grams per 100 ft row, or 25 to 40 kg per acre.	227 gr \$3.25	1 lb \$4.30	5 lbs (per lb) \$2.75	25 lbs (per lb) \$2.15	100 lbs (per lb) \$1.75
Pencil Pod Black Wax							
Bean		60 days. Plants are 40 cm (16") tall bush. Distinctively flavoured green beans with wide stringless pods averaging 15 cm (6"). Very heavy yields. Tender meaty pods good for freezing and canning, and popular for roadside stands. Approximate Seeds Per Gram - 3 to 4. Seeding Rate - 700 to 900 grams per 100 ft row, or 25 to 40 kg per acre.	227 gr \$3.25	1 lb \$4.30	5 lbs (per lb) \$2.75	25 lbs (per lb) \$2.15	100 lbs (per lb) \$1.75
Romanette Bush							
Bean		53 days. Plants 40 cm (16") high. Pods are purple, round, stringless and average 12 -15 cm (5-6"). Firm texture and outstanding flavour canned or frozen. Pods turn deep green after 2 min. of boiling to indicate blanching. Resistant to Common Bean Mosaic, NY15 Virus and Pod Mottle. Tolerant to Curly Top Virus. Seeds buff. Approximate Seeds Per Gram - 3 to 4. Seeding Rate - 700 to 900 grams per 100 ft row, or 25 to 40 kg per acre.	227 gr \$3.60	1 lb \$4.65	5 lbs (per lb) \$2.79	25 lbs (per lb) \$2.25	100 lbs (per lb) \$1.80
Royal Burgundy							
Bean		70 days. Plants 4 to 10' tall. Pods 12 cm (5"-9"), broad, flat, medium green. Should be picked young. Because of attractive scarlet flowers, it is also used as an ornamental climber. Seeds dark purple mottled with violet. Very attractive to hummingbirds. Approximate Seeds Per Gram: 1 - 4. Seeding Rate - 300 to 500 grams per 100 ft row, or 25 kg per acre.	227 gr \$5.10	1 lb \$7.10	5 lbs (per lb) \$4.65	25 lbs (per lb) \$3.75	
Scarlet Runner Beans (Emperor)							
Bean		52 days. Plants 40 -45 cm (16-18") tall and upright. Pods 12-15 cm (5-6"), thick, oval, slightly curved and medium dark green. Pods are brittle and absolutely stringless even when fully mature. A classic variety primarily for home garden use. Rapid seed development. Seeds coffee brown. Approximate Seeds Per Gram - 3 to 4. Seeding Rate - 700 to 900 grams per 100 ft row, or 25 to 40 kg per acre.	227 gr \$3.25	1 lb \$4.30	5 lbs (per lb) \$2.75	25 lbs (per lb) \$2.15	100 lbs (per lb) \$1.75
Stringless Green Pod (Landreth)							
Bean		53 days. Plants 45-50 cm (18-20") upright. Pods are round, dark green and stringless ranging 12-15 cm (5-6"), and set well off ground. Flavour is excellent, and the plants are heat tolerant. Very productive. Resistant to Common Bean Mosaic 1 virus (CBM 1). Seed purple mottled fawn. Approximate Seeds Per Gram - 3 to 4. Seeding Rate - 700 to 900 grams per 100 ft row, or 25 to 40 kg per acre.	227 gr \$3.25	1 lb \$4.30	5 lbs (per lb) \$2.75	25 lbs (per lb) \$2.15	100 lbs (per lb) \$1.75
Tendergreen Stringless							

2005 Bulk Seed Catalogue

Beet Detroit Dark Red		56 days. Globe shaped, dark red smooth exterior. Interior is a uniform dark red with indistinct zoning and finely grained. Tops 30-40 cm (12-15") tall, glossy dark green tinged with maroon. Good storage properties. Excellent main crop beet. Approximate Seeds Per Gram - 70. Seeding Rate - 30 to 60 grams per 100 ft row, or 6 kg per acre.	28 gr \$3.50	113 gr \$4.95	227 gr \$7.05	1 lb \$10.95	5 lbs (per lb) \$10.40	10 lbs (per lb) \$9.95	25 lbs (per lb) \$9.30	100 lbs (per lb) \$8.60
Beet Early Wonder		50 days. Flattened globe with rounded shoulders and small tap root. Smooth exterior, dark red, 8 cm (3") in diameter. Interior dark red with some lighter red zoning. Tops 40-45 cm (15-18") tall, large and uniformly erect green leaves. A very early sweet and tender bunching variety. The fast growing tops are always in demand for greens. Approximate Seeds Per Gram - 70. Seeding Rate - 30 to 60 grams per 100 ft row, or 6 kg per acre.	28 gr \$3.50	113 gr \$4.95	227 gr \$7.05	1 lb \$10.95	5 lbs (per lb) \$10.40	10 lbs (per lb) \$9.95	25 lbs (per lb) \$9.30	100 lbs (per lb) \$8.60
Beet Formanova (Cylindra)		55 days. A high quality cylindrical beet for slicing. Carrot shaped roots are 15 cm (6") long by 5-8 cm (2-3") in diameter, providing up to 4 times the number of uniform slices than other beets. Deep red colour, and fine texture. Excellent for commercial canneries and home gardeners. Approximate Seeds Per Gram - 70. Seeding Rate - 30 to 60 grams per 100 ft row, or 6 kg per acre.	28 gr \$4.25	113 gr \$6.05	227 gr \$10.20	1 lb \$13.35	5 lbs (per lb) \$12.70	10 lbs (per lb) \$12.00	25 lbs (per lb) \$11.30	100 lbs (per lb) \$10.70
Beet Ruby Queen		50 days. A very dark red interior, free from zoning. Very attractive short dark green tops, turning to red and fine tap root ideal for bunching. Roots are smooth, round and hold their shape even when crowded. An excellent early beet for the home and market gardener, and a common main crop for commercial purposes. Approximate Seeds Per Gram - 70. Seeding Rate - 30 to 60 grams per 100 ft row, or 6 kg per acre.	28 gr \$3.50	113 gr \$4.95	227 gr \$7.05	1 lb \$10.95	5 lbs (per lb) \$10.40	10 lbs (per lb) \$9.95	25 lbs (per lb) \$9.30	100 lbs (per lb) \$8.60
Broccoli Green Sprouting Celebese		55 days from transplant. An early variety, very popular with market gardeners, canneries and freezers. Plants are deep green, 45-50 cm (18-20") tall. Heads early, close beaded, large. Side shoots develop for long season after cutting central head. Approximate Seeds Per Gram - 265. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per kg	28 gr \$3.75	113 gr \$7.45	1 lb \$16.85	5 lbs (per lb) \$13.25				
Brussels Sprouts Long Island Improved		90 days. Round, tight heads on a comparatively dwarf Brussels Sprouts. 60 cm (2') tall, with firm cabbage like sprouts, maturing over several weeks. Approximate Seeds Per Gram - 280. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	14 gr \$3.40	28 gr \$4.50	113 gr \$9.36	1 lb \$17.20				
Cabbage Chinese (Chi-Hi-Li) (early)		75 days. Early, sure-heading variety. The heads are oblong, 7-10 cm (3-4") thick and 45-50 cm (17-19") tall, tapering at the top. This vigorous cabbage has a well blanched heart with bright green outer leaves. Very tender, excellent quality with a celery like spicy taste. Approximate Seeds Per Gram - 210. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	28 gr \$2.40	113 gr \$4.05	227 gr \$6.50	1 lb \$10.80	5 lbs (per lb) \$8.95			
Cabbage Chinese Wok Bok (mid)		80 days. Heads are oval, about 25 x 20 cm (10" x 8"). The whole head is completely blanched. Very tender. Best if reaches maturity in cool weather. Approximate Seeds Per Gram - 210. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	28 gr \$2.40	113 gr \$3.95	227 gr \$6.65	1 lb \$11.05	5 lbs (per lb) \$9.20			
Cabbage Copenhagen Market		68 days from transplant. Plants 30-35 cm (11-14") tall, erect, compact, short stemmed. Outer leaves sparse, medium green and cup shaped. Heads 15-18 cm (6-7"), weighing 1.5 kg (3-4 lbs). Globe shaped and solid. An early market and home garden type. Approximate Seeds Per Gram - 210. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	28 gr \$3.25	113 gr \$5.70	227 gr \$9.25	1 lb \$14.55	5 lbs (per lb) \$12.10			
Cabbage Danish Ballhead		100 days from transplant. Plants 30-45 cm (12-16") tall, short stemmed, medium large with blue-green colour. Heads average 20 cm (8") in diameter, and 2.5 kg (5-7 lbs). Solid globe-shape with a stubby core. An excellent home, market garden and shipping variety. A good storage cabbage and make fine quality kraut. Approximate Seeds Per Gram - 210. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	28 gr \$3.10	113 gr \$5.95	227 gr \$9.30	1 lb \$15.95	5 lbs (per lb) \$13.90			
Cabbage Golden Acre (early)		65 days from transplant. Early, slow bolting variety. Heads of excellent quality, 14 x 15 cm (5.5 x 6") and average 1-2 kg (3-5 lbs). Plants are short stemmed, erect with few outer leaves. Suitable for close spacing. Approximate Seeds Per Gram - 210. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	28 gr \$3.85	113 gr \$6.75	227 gr \$11.50	1 lb \$18.00	5 lbs (per lb) \$14.95			
Cabbage Red Acre (mid)		80 days from transplant. Heads globe shaped, solid, deep red. Diameter 15 -18 cm (6-7"), averaging 1.5 - 2 kg (3-4 lbs). Plants are compact. Resists splitting. Great storage cabbage. Approximate Seeds Per Gram - 210. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	28 gr \$3.40	113 gr \$8.35	227 gr \$14.35	1 lb \$24.30	5 lbs (per lb) \$23.25			

2005 Bulk Seed Catalogue

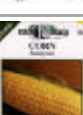

Vegetables

Cabbage Savoy Perfection		85 - 90 days from transplant. Heads are flattened globe shape, 18 x 25 cm (7 x 10"). Approximate weight 3 kg (6 lbs). Leaves closely crimped or savoyed, and hold green colour when cooked. Savoy cabbage is commonly regarded as the best tasting of all types of cabbage. Stands a long time without bursting. Approximate Seeds Per Gram - 210. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	28 gr \$3.50	113 gr \$8.50	227 gr \$14.40	1 lb \$24.34	5 lbs (per lb) \$23.24	
Cantaloupe Hales Best 45 (early)		85 days. 16 x 14.5 cm (6.5 x 5.75") oval shaped fruits with moderate ribbing and heavy netting. Flesh is salmon orange, thick and sweet. Resistant to powdery mildew. Approximate Seeds Per Gram - 43. Seeding Rate - 30 grams per 100 ft row, or 1.4 kg per kg.	14 gr \$3.30	28 gr \$5.15	113 gr \$10.90	227 gr \$17.35	1 lb \$31.45	
Carrot Chantenay Red		70 days. Tops 38-50 cm (15 - 20"), strong crowns. Roots 15 x 6 cm (6 x 2.5"), heavy bodied, tapering to a blunt point. Solid, deep orange. Produces heavy tonnage. Strong crowns make this carrot excellent for winter storage and freezing, and popular for juicing and canning. Approximate Seeds Per Gram - 800. Seeding Rate - 15 to 20 grams per 100 ft row, or 1.4 kg per acre.	28 gr \$2.60	113 gr \$7.65	227 gr \$12.40	1 lb \$15.20	5 lbs (per lb) \$14.15	25 lbs (per lb) \$13.75
Carrot Danvers Half Long		68 days. Roots 18 x 5 cm (7 x 2"), tapering to semi-blunt end. Medium orange colour. Tops good 40-50 cm (16-20") tall. Leading main crop variety, suitable for home garden, processing, freezing and canning. Outstanding in heavier soils. Approximate Seeds Per Gram - 800. Seeding Rate - 15 to 20 grams per 100 ft row, or 1.4 kg per acre.	28 gr \$2.60	113 gr \$7.65	227 gr \$12.40	1 lb \$15.20	5 lbs (per lb) \$14.35	25 lbs (per lb) \$13.75
Carrot Healthmaster Hybrid		100 - 130 days. This is a big carrot! In some growing conditions, it can grow to 25 cm (10") in length and weigh as much as 700 g (1.5 lb). This hybrid was developed to produce 1/3 more Vitamin A than open pollinated varieties like Danvers. Perfect for slicing and juicing. Healthmaster should be allowed to mature fully for best taste and highest quality. Approximate Seeds Per Gram - 800. Seeding Rate - 15 to 20 grams per 100 ft row, or 1.4 kg per acre.	7 gr \$7.50	14 gr \$13.65	28 gr \$23.40	113 gr \$78.20	227 gr \$124.80	1 lb. \$187.15
Carrot Imperator		75 days. Roots 20-25 cm (8-10") long and almost coreless, smooth, tapered to pointed tips. Deep orange colour. Tops 40-50 cm (16-20") tall, well attached to roots. Leading market and shipping variety, and well suited to winter storage. Requires deep loamy soil. Approximate Seeds Per Gram - 800. Seeding Rate - 15 to 20 grams per 100 ft row, or 1.4 kg per acre.	28 gr \$2.60	113 gr \$7.65	227 gr \$12.40	1 lb \$15.20	5 lbs (per lb) \$14.35	25 lbs (per lb) \$13.75
Carrot Kuroda		70 days. A popular variety in the orient, the roots are large, juicy and have exceptional flavour. Strong tops. Grows quickly with wide top or shoulder and slight taper to tip, so space and thin more than other varieties. Approximately 18 cm (7") long. Approximate Seeds Per Gram - 800. Seeding Rate - 15 to 20 grams per 100 ft row, or 1.4 kg per acre.	28 gr \$2.70	113 gr \$8.20	227 gr \$13.35	1 lb \$16.40	5 lbs (per lb) \$15.45	25 lbs (per lb) \$14.85
Carrot Little Finger		65 days. Roots 9 x 1.5 cm (3.5 x 5/8"), almost coreless, smooth cylindrical, rich orange colour, with small tops. Gourmet cooking type carrot. Excellent flavour. Ideal for patio and window boxes. Approximate Seeds Per Gram - 800. Seeding Rate - 15 to 20 grams per 100 ft row, or 1.4 kg per acre.	28 gr \$4.50	113 gr \$14.35	227 gr \$25.62	1 lb \$36.50	5 lbs (per lb) \$32.90	25 lbs (per lb) \$29.60
Carrot Nantes Scarlet Coreless		68 days. Our best seller. Roots 17 x 3 cm (6.5 x 1.25"). Tops are medium small, but strong enough for bunching. Roots nearly cylindrical, blunt ended. Very sweet with a smooth skin, and bright orange red flesh. Excellent for fresh eating, freezing and canning. Stores well. Approximate Seeds Per Gram - 800. Seeding Rate - 15 to 20 grams per 100 ft row, or 1.4 kg per acre.	28 gr \$2.55	113 gr \$7.50	227 gr \$12.20	1 lb \$15.10	5 lbs (per lb) \$14.25	25 lbs (per lb) \$13.40
Cauliflower Early Snowball 'A'		55 days. Very reliable early strain, very even in time of maturing. Heads are medium to large in size, solid and a clear snow white colour. Large rather broad and slightly waved leaves protect from yellowing. Approximate Seeds Per Gram - 315. Seeding Rate - 7 to 10 grams per 100 ft row, or 0.5 kg per acre.	14 gr \$3.50	28 gr \$5.95	113 gr \$13.60	227 gr \$24.00	1 lb \$39.40	5 lbs (per lb) \$32.75
Cauliflower Snowball 'Y'		70 days. Vigorous growth with heavy yield. Curd is smooth white and solid. Protected by large outer leaves. Excellent for freezing. Approximate Seeds Per Gram - 315. Seeding Rate - 7 to 10 grams per 100 ft row, or 0.5 kg per acre.	14 gr \$3.35	28 gr \$5.75	113 gr \$13.40	227 gr \$23.00	1 lb \$38.40	5 lbs (per lb) \$32.60
Celeriac Prague		110 days. Known as turnip rooted celery. The root is the edible part. Grown similar to celery. Store for winter use in soups, stews and raw in salads. Approximate Seeds Per Gram - 2000. Seeding Rate - 7 grams per 100 ft row, or 0.5 per kg.	14 gr \$3.05	28 gr \$4.25	113 gr \$12.20	227 gr \$19.98		

2005 Bulk Seed Catalogue

Vegetables

Celery Tall Utah Green		130 days from transplant. Compact, well rounded plants are 65 cm (25") tall. Tender, stringless crisp and juicy. Highly tolerant to Celery Mosaic and resistant to Brown Check. Widely adapted for shipping, market and home garden. Approximate Seeds Per Gram - 2000. Seeding Rate - 7 grams per 100 ft row, or 0.5 per kg.	14 gr \$3.95	28 gr \$5.60	113 gr \$15.70	227 gr \$27.20	1 lb \$45.20			
Corn Buttervee		73 days from emergence. Ears average 20 cm (8") with 12-14 rows. Eating quality and outstanding tenderness are retained a long time after picking. Kernels have high sugar content, butter yellow in colour. Approximate Seeds Per Gram - 5 to 6. Seeding Rate - 100 grams per 100 ft row, or 3 kg per acre.	57 gr \$2.15	227 gr \$6.95	1 lb \$11.10	5 lbs (per lb) \$10.95	25 lbs (per lb) \$9.70	50 lbs (per lb) \$8.95		
Corn Early Xtra-Sweet		75 days from emergence. An early super sweet corn with ears 18-23 cm (7-9") long. Plant height 1.5-1.8 m (5-6'). Very high sugar content. MUST BE GROWN IN ISOLATION FROM OTHER CORN. Approximate Seeds Per Gram - 5 to 6. Seeding Rate - 100 grams per 100 ft row, or 3 kg per acre.	57 gr \$6.10	227 gr \$11.65	1 lb \$16.55	5 lbs (per lb) \$15.20				
Corn Improved Golden Bantam (early)		69 days. (Open Pollinated) An improved strain of the classic Bantam variety that has been a top seller and home garden standard across North America for many years. Grows 1.5 m (5') and produces 18 cm (7") ears with 12 rows of stout golden yellow kernels. Excellent for fresh use or freezing. Approximate Seeds Per Gram - 5 to 6. Seeding Rate - 100 grams per 100 ft row, or 3 kg per acre.	57 gr \$1.45	227 gr \$3.70	1 lb \$5.45	5 lbs (per lb) \$5.15	25 lbs (per lb) \$4.95	50 lbs (per lb) \$4.70		
Corn Peaches & Cream		65 days from emergence. SE very early bi-colour sweet corn with above average quality. Produces strong seedlings and vigorous plants while also providing high ear placement and an exceptional 14-16 row count. Its large 21 cm x 5 cm (8.5" x 2") ears are packaged in dark green husks making this variety an attractive choice for gardeners looking for earliness and quality. Approximate Seeds Per Gram - 5 to 6. Seeding Rate - 100 grams per 100 ft row, or 3 kg per acre.	57 gr \$5.25	227 gr \$9.75	1 lb \$14.95	5 lbs (per lb) \$14.45	25 lbs (per lb) \$14.00	50 lbs (per lb) \$13.80		
Corn Precocious		66 days. Homozygous Yellow SE. Grows 1.4 m (54") in height and has an attractive 17 cm (7") ear with a 12 to 14 rows. Best eating early corn, fills to the tip even under stress.	57 gr \$5.30	227 gr \$9.85	1 lb \$15.05	5 lbs (per lb) \$14.75	25 lbs (per lb) \$14.40			
Corn Seneca Daybreak (Earlivee)		64 Days. SE ears 18 cm (7") long with row count of 12-14. Excellent flavour. A valuable variety for roadside stands and market gardens. Provides a higher level of sugar than normal sweet corn, and excellent cold tolerance. Approximate Seeds Per Gram - 5 to 6. Seeding Rate - 100 grams per 100 ft row, or 3 kg per acre.	57 gr \$5.45	227 gr \$9.98	1 lb \$14.99	5 lbs (per lb) \$14.49	25 lbs (per lb) \$13.99			
Corn Seneca Horizon		67 days. Produces ears with superior eating quality as compared to other early hybrids. Ears are 23-25 cm (9-10") long, with 16-18 rows of bright yellow kernels. Tip fill is good with attractive looking flag leaves. Plants are 1.5-1.7 m (5-5.5') tall with excellent vigor, good emergence and rapid growth potential. Recommended for home gardens and roadside markets. Approximate Seeds Per Gram - 5 to 6. Seeding Rate - 100 grams per 100 ft row, or 3 kg per acre.	57 gr \$5.25	227 gr \$9.75	1 lb \$15.25	5 lbs (per lb) \$14.95	25 lbs (per lb) \$14.05			
Corn Sunnyvee		66 days. An improved Spangcross variety. Plants 1.5 m (5') tall, and vigorous. Ears 18 cm (7") long with 12-14 rows. Very good tip fill. Excellent cooking and freezing variety. Suitable for the home and commercial garden. Approximate Seeds Per Gram - 5 to 6. Seeding Rate - 100 grams per 100 ft row, or 3 kg per acre.	57 gr \$2.25	227 gr \$6.25	1 lb \$9.30	5 lbs (per lb) \$8.05	25 lbs (per lb) \$6.75	50 lbs (per lb) \$6.25		
Cucumber Armenian (Yard Long)		69 days. Distinct, long curved fruits will grow up to a yard long with a diameter of 8-10 cm (3-4"). The fruit is gray-green with a unique fluting, spineless, and will be straighter if plants are grown on a trellis. Best picked about 25-30 cm (10-12") long. Burpless. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	14 gr \$2.75	28 gr \$3.50	113 gr \$10.25	227 gr \$16.40	1 lb \$28.30			
Cucumber Calypso (Pickling)		51-53 days. High yielding, gynoecious pickling variety. Blocky shape, medium dark green, white spine. Tolerant to powdery and downy mildew, and cucumber mosaic virus. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	14 gr \$3.30	28 gr \$5.15	113 gr \$13.75	227 gr \$20.50	1 lb \$38.65	5 lbs (per lb) \$34.60		
Cucumber Cool Breeze		45-48 days. Extra early, very high yielding variety. All-female flowers, need no pollination to set fruit. These make great pickles at 4" size, and good salads cukes when slightly larger. Small, fine spines and an all-over pebbled texture. Starts early and keeps producing until frost. High disease tolerance. Approximate 102 seeds=3 gr. 1000 seeds=28 gr.	1 gr \$2.95	2 gr. \$4.50	4 gr. \$7.60	7 gr. \$11.95	14 gr. \$21.10	28 gr. \$36.95	113 gr. \$127.85	227 gr. \$213.05

Cucumber English Telegraph		Fruits average 40 to 45 cm (15-18") long, slim, straight, and symmetrical. Should be staked or grown on a fence as fruits may curl. Not bitter. Dark green in colour. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>7 gr</u> \$10.90	<u>14 gr</u> \$14.70	<u>28 gr</u> \$22.40	<u>113 gr</u> \$63.18	<u>227 gr</u> \$97.25	<u>1 lb</u> \$164.90	
Cucumber Garden Sweet F1 Burpless		62 days. A unique slicing cucumber with delicious sweet taste. Bitter free burpless type. Dark green fruits hold colour well and are 25-30 cm (10-12") long. Plants are tolerant to Downy and Powdery Mildew, Leaf Spot, Mosaic, Anthracnose and Scab. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>7 gr</u> \$5.85	<u>14 gr</u> \$8.95	<u>28 gr</u> \$15.75	<u>113 gr</u> \$56.12	<u>227 gr</u> \$102.02	<u>1 lb</u> \$185.48	
Cucumber Holland Hothouse (Greenhouse)		Medium dark green with 40 cm (15") cylindrical fruits. Holland cucumbers are straight and uniform with moderate ribbing. Sets a high number of fruits without the aid of cross pollination. Strong tolerance to scab and target leaf spot. Excellent shelf life makes this the ideal Market Garden Cucumber! Mid - season. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>10 Seeds</u> \$9.75	<u>25 Seeds</u> \$21.95	<u>50 Seeds</u> \$41.50	<u>100 Seeds</u> \$76.95	<u>250 Seeds</u> \$187.00		
Cucumber Improved Long Green		70 days. Vines are vigorous, and dark green in colour. Broad leaves give good coverage. Fruit size 25 x 8 cm (10 x 3"), cylindrical with rounded ends, slightly tapered, black spine. Flesh is crisp and very white. Used for slicing and pickling. Popular with home gardeners. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$2.95	<u>113 gr</u> \$6.95	<u>227 gr</u> \$11.25	<u>1 lb</u> \$17.90	<u>5 lbs (per lb)</u> \$16.75		
Cucumber MarketMore 76		68 days. Fruit size is 23 x 6 cm (9 x 2.5"), slender and straight. White spine, fruits very dark green with very little stippling. Resistant to Powdery and Downey Mildew. An excellent slicing variety with mild flavour. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$2.95	<u>113 gr</u> \$6.95	<u>227 gr</u> \$11.25	<u>1 lb</u> \$17.90	<u>5 lbs (per lb)</u> \$16.75		
Cucumber Morden Early (Pickling)		50 days. Very early, producing clusters of medium sized dark green fruit which are tender and straight with a white spine. Compact and prolific. First fresh cucumber for slicing or pickling. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>14 gr</u> \$8.30	<u>28 gr</u> \$13.25	<u>113 gr</u> \$43.10	<u>227 gr</u> \$71.85	<u>1 lb</u> \$132.20		
Cucumber National Pickling		55 days. Vines productive with dark green medium sized leaves. Fruits 15 x 5 cm (6 x 2"), cylindrical and blunt ended. Medium green, black spine. Excellent pickling type. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$3.05	<u>113 gr</u> \$5.40	<u>227 gr</u> \$7.95	<u>1 lb</u> \$13.95	<u>5 lbs (per lb)</u> \$12.05		
Cucumber Orient Express		64 days. This dark green oriental type fruit is long narrow, and has an exceptionally long shelf life. One of the highest yielding hybrids available. Excellent crunchy full flavor. This gynococious vine type variety with pollinator added has a wide spectrum of disease tolerance. Trellis to keep fruit straight. Best harvested at 25 - 30 cm (10 - 12"). Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>4 gr</u> \$4.50	<u>7 gr</u> \$7.65	<u>14 gr</u> \$13.75	<u>28 gr</u> \$21.20	<u>113 gr</u> \$62.75	<u>227 gr</u> \$117.40	<u>454 gr</u> \$203.50
Cucumber Pioneer F1 Hybrid (Pickling)		55 days. Fruit grows 10-15 cm (5-6"), dark green with blunt ends. Produces a very high proportion of female flowers. Vines medium size, heavy yielder, high tolerance to Downy Mildew, Scab and Angular Leaf Spot. Highly recommend pickling cucumber. Heavy yielder. Needs warm soil for seed to germinate. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$2.65	<u>113 gr</u> \$7.40	<u>227 gr</u> \$11.35	<u>1 lb</u> \$19.25	<u>5 lbs (per lb)</u> \$18.05		
Cucumber S.M.R. 58 (SubMincu Pickling)		58 days. A black spine pickler. Medium green in colour. Plants are vigorous. Fruits are nearly cylindrical, 15 x 6 cm (6" x 2.5"). Good colour and processing quality. Resistant to Cucumber Mosaic, Black Spot and Scab. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$3.05	<u>113 gr</u> \$5.40	<u>227 gr</u> \$7.95	<u>1 lb</u> \$13.95	<u>5 lbs (per lb)</u> \$12.05		
Cucumber Spacemaster (Bush Crop)		60 days. Compact, bushy plant with full-sized 18 cm (7") fruits. Ideal for small gardens and containers. Tolerant to Cucumber Mosaic and Scab. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>14 gr</u> \$2.95	<u>28 gr</u> \$5.25	<u>113 gr</u> \$12.85	<u>227 gr</u> \$22.75	<u>1 lb</u> \$43.58	<u>5 lbs (per lb)</u> \$41.80	
Cucumber Straight Eight		65 days. A favorite white spine variety of highest quality. Dark green at shipping size, cylindrical, blunt ends. Fruit is best at 20 x 6 cm (8 x 2.5"). No striping, small seed area. For home and market gardens. Heavy yielder. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$2.95	<u>113 gr</u> \$6.95	<u>227 gr</u> \$11.25	<u>1 lb</u> \$17.90	<u>5 lbs (per lb)</u> \$16.75

Vegetables

Cucumber Sweet Slice Hybrid		62 days. Fruit 25-30 cm (10-12") long and 5 cm (2") in diameter with slightly tapered ends. Holds dark green colour well. It is a heavy producer over long seasons, making it ideal for commercial and market garden applications. Tolerant to almost all diseases. Digests easily, and great for people who can not eat ordinary cucumbers. Approximate Seeds Per Gram - 40 to 45. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>100 Seeds</u>	<u>250 Seeds</u>	<u>500 seeds</u>	<u>1,000 seeds</u>	<u>10 M (per M)</u>
			\$7.10	\$12.75	\$21.50	\$33.40	\$28.05
Endive Broad Leaved Batavian		85 days. Upright broad plants. Outer leaves are smooth, dark green and less susceptible to basal rot. Closely bunched centre leaves blanch to a nice creamy yellow.	<u>28 gr</u>	<u>113 gr</u>	<u>1 lb</u>	<u>5 lbs (per lb)</u>	
			\$2.95	\$6.95	\$20.90	\$17.50	
Endive Green Curled		95 days. A much improved large green curled variety. Up to 38 cm (15") in diameter. Outer leaves are dark green, deeply cut and fringed. The heart blanches to a creamy white, and is very sweet and tender. Store in a cool spot, binding the outer leaves to keep the centre white.	<u>28 gr</u>	<u>113 gr</u>	<u>1 lb</u>	<u>5 lbs (per lb)</u>	
			\$2.95	\$6.95	\$20.90	\$17.50	
Kale Dwarf Blue Curled		60 days. Plant size 35-38 cm (14-15"), vigorous and hardy. Leaves are coarsely curled, green and blue bloom in colour. Flavour improves after a hard frost. Recommend for market, shipping, processing and home gardens. Approximate Seeds Per Gram - 310. Seeding Rate - 15 grams per 100 ft row, or 1.4 kg per acre.	<u>28 gr</u>	<u>113 gr</u>	<u>1 lb</u>		
			\$4.95	\$7.35	\$15.25		
Kohl Rabi Purple Vienna		60 days. Plants 20-25 cm (8-10") tall, with purplish-green leaf and stem. Bulbs are purple skinned with white flesh. They should be used when about 5 cm (2") diameter or they can become woody. Standard variety used by home and market gardeners. Approximate Seeds Per Gram - 230. Seeding Rate - 10 to 15 grams per 100 ft row, or 2 kg per acre.	<u>28 gr</u>	<u>113 gr</u>	<u>227 gr</u>	<u>1 lb</u>	
			\$3.95	\$6.60	\$9.50	\$16.50	
Kohl Rabi White Vienna		55 days. Plants 30-35 cm (12-14") tall. Slender stems. Globe shaped bulbs are a light green colour with white flesh. Best harvest when bulbs are about 5 cm (2") in diameter. Slightly earlier than Purple Vienna. Approximate Seeds Per Gram - 230. Seeding Rate - 10 to 15 grams per 100 ft row, or 2 kg per acre.	<u>28 gr</u>	<u>113 gr</u>	<u>227 gr</u>	<u>1 lb</u>	
			\$3.95	\$6.60	\$9.50	\$16.50	
Leeks American Flag		112 - 140 days. Leaves are medium green. The stem is fairly long and best harvested at about 5 cm (2") thick. Quite hardy. Approximate Seeds Per Gram - 350. Seeding Rate - 5 to 7 grams per 100 ft row, or 2 kg per acre.	<u>14 gr</u>	<u>28 gr</u>	<u>113 gr</u>	<u>227 gr</u>	<u>1 lb</u>
			\$3.50	\$5.25	\$14.00	\$23.85	\$42.30
Lettuce Buttercrunch		66 days. Long standing, slow bolting variety. The dark green butter heads are very compact 25 cm (10") and crisp. Considerable heat resistance. Fine for home and market gardens. Approximate Seeds Per Gram - 700 to 900. Seeding Rate - 7 grams per 100 ft row, or 0.5 kg per acre.	<u>28 gr</u>	<u>113 gr</u>	<u>227 gr</u>	<u>1 lb</u>	<u>5 lbs (per lb)</u>
			\$3.20	\$7.05	\$10.50	\$15.30	\$12.70
Lettuce Early Prizehead (Brown-Leaf)		45 days. Very early, quick growing and popular for home gardens. Plants are large, upright, strictly loose-leaf. Leaves are broad, crumpled and frilled. Tinged red at edges. Tender and sweet. Very attractive in the garden and in salads. Approximate Seeds Per Gram - 700 to 900. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	<u>28 gr</u>	<u>113 gr</u>	<u>227 gr</u>	<u>1 lb</u>	<u>5 lbs (per lb)</u>
			\$3.25	\$7.10	\$10.60	\$15.40	\$12.80
Lettuce Gourmet Mix		This blend contains all of our leaf lettuce varieties and Romaine lettuce to provide a unique gardening experience. A special treat for making fresh salads in the summer! Approximate Seeds Per Gram - 700 to 900. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	<u>28 gr</u>	<u>113 gr</u>	<u>227 gr</u>	<u>1 lb</u>	
			\$3.95	\$9.90	\$14.70	\$24.60	
Lettuce Grand Rapids		45 days. Plants large, erect and compact. Leaves bright green, broad with waved and frilled margins. One of the most popular loose-leafed varieties for home gardens and greenhouse forcing. Tipburn resistant and slow bolting. Approximate Seeds Per Gram - 700 to 900. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	<u>28 gr</u>	<u>113 gr</u>	<u>227 gr</u>	<u>1 lb</u>	<u>5 lbs (per lb)</u>
			\$3.25	\$7.10	\$10.60	\$15.40	\$12.80
Lettuce Great Lakes (659)		85 days. Heads are large, round, dark green, solid. Core is small. Heavy blistered, deeply cut leaves. A good market head. Approximate Seeds Per Gram - 700 to 900. Seeding Rate - 7 grams per 100 ft row, or 0.5 kg per acre.	<u>28 gr</u>	<u>113 gr</u>	<u>227 gr</u>	<u>1 lb</u>	<u>5 lbs (per lb)</u>
			\$3.95	\$13.95	\$17.40	\$31.90	\$28.95

Lettuce New York #12		70 days. An early, sure heading strain adapted to warm weather. Heads are medium size, flat, medium green in colour. Large core. Tip burn resistant. Crisp heavily curled and blanched creamy white inside. Approximate Seeds Per Gram - 700 to 900. Seeding Rate - 7 grams per 100 ft row, or 0.5 kg per acre.	<u>28 gr</u> \$3.75	<u>113 gr</u> \$9.90	<u>227 gr</u> \$14.70	<u>1 lb</u> \$24.60	<u>5 lbs (per lb)</u> \$20.50	
Lettuce Paris Cos or Romaine		70 days. Plants large, upright 20-25 cm (8-10") tall. Leaves broad and long, slightly savoyed. Medium green colour with greenish-white self blanching heart. Approximate Seeds Per Gram - 700 to 900. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	<u>28 gr</u> \$3.25	<u>113 gr</u> \$7.10	<u>227 gr</u> \$10.60	<u>1 lb</u> \$15.40	<u>5 lbs (per lb)</u> \$12.80	
Lettuce Ruby		50 days. Plants large, spreading with bright red fringed and savoyed leaves. An excellent leaf lettuce for home and market gardeners. Performs well in hot weather. Approximate Seeds Per Gram - 700 to 900. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	<u>28 gr</u> \$3.75	<u>113 gr</u> \$9.90	<u>227 gr</u> \$14.70	<u>1 lb</u> \$24.60	<u>5 lbs (per lb)</u> \$20.50	
Okra Clemson Spineless		50 - 60 days. Compact 122 cm (48") plant. Pods are 15 cm (6") long, dark green in colour, pointed, and moderately ribbed. Pick when young for the highest quality and to encourage further production. The essential ingredient in gumbo! Approximate Seeds Per Gram - 15 to 20. Seeding Rate - 60 grams per 100 ft row, or 3.6 kg per acre.	<u>28 gr</u> \$2.15	<u>113 gr</u> \$3.15	<u>1 lb</u> \$4.75	<u>5 lbs (per lb)</u> \$3.95		
Onion Crystal White Wax (White Queen Pickling)		80 days. An early pickling variety. Bulbs are flat, small sized with silky white scales. Flesh is tender and mild in flavour. Should be planted thickly and harvested early when they are still small. Approximate Seeds Per Gram - 280. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$4.75	<u>113 gr</u> \$13.80	<u>1 lb</u> \$47.50			
Onion Evergreen White Bunching		68 days. A non-bulbing dividing type with long stalks of delicate flavour. Resistant to pink root, smut and thrips. Approximate Seeds Per Gram - 280. Seeding Rate - 80 to 100 grams per 100 ft row, or 6.8 kg per acre.	<u>28 gr</u> \$3.80	<u>113 gr</u> \$8.50	<u>1 lb</u> \$21.10	<u>5 lbs (per lb)</u> \$20.60		
Onion Golden Globe		110 days. The bulbs are medium sized, uniformly globe shaped with crisp pungent white flesh. Good for storage. Approximate Seeds Per Gram - 280. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$3.95	<u>113 gr</u> \$10.65	<u>1 lb</u> \$23.10	<u>5 lbs (per lb)</u> \$22.60		
Onion He-Shi-Ko Bunching		70 days. Non-bulbing dividing type. Plants are winter hardy with small upright leaves. Resistant to pink root, smut and thrips. Approximate Seeds Per Gram - 280. Seeding Rate - 80 to 100 grams per 100 ft row, or 6.8 kg per acre.	<u>28 gr</u> \$3.90	<u>113 gr</u> \$8.95	<u>1 lb</u> \$22.50			
Onion Red Wethersfield		100 days. A standard variety of good keeping quality. Excellent for sets and for mature bulbs. Bulbs are large, flat, dark red in colour. Flesh is soft and pungent. Approximate Seeds Per Gram - 280. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$3.95	<u>113 gr</u> \$9.95	<u>1 lb</u> \$31.95			
Onion Walla Walla Sweet Spanish		115 days. This is an over wintering onion variety. Bulbs are flattened globes with thin yellowish-brown scales. This onion has a very mild in flavour, designed only for an early June market as it does not store well beyond 1-2 months after harvest. It should be seeded in late September for best results. Popular transplanting variety for the home gardener. Approximate Seeds Per Gram - 280. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>7 gr</u> \$5.50	<u>14 gr</u> \$7.30	<u>28 gr</u> \$12.75	<u>113 gr</u> \$44.10	<u>227 gr</u> \$73.45	<u>1 lb</u> \$130.00
Onion White Lisbon Bunching		60 days. Tender and mild bunching variety. For premium quality, harvest before the bottom of the shafts swell. Dark green tops hold well after harvest. Approximate Seeds Per Gram - 280. Seeding Rate - 80 to 100 grams per 100 ft row, or 6.8 kg per acre.	<u>28 gr</u> \$3.65	<u>113 gr</u> \$7.70	<u>1 lb</u> \$19.45			
Onion White Utah Sweet Spanish		110 days. A very large white globe with firm mild flesh. Short storage only. Slow bulbing, also used for bunching at about 75 days. Approximate Seeds Per Gram - 280. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$3.90	<u>113 gr</u> \$8.35	<u>1 lb</u> \$22.10			

2005 Bulk Seed Catalogue

"The Seed House That Service Built"

Onion Yellow Utah Sweet Spanish		115 days. Very large, dark yellow globe. Flesh moderately firm and mild. Used extensively for slicing and hamburger purposes. Popular with home and market gardeners because of large size and mild flavour. Large green foliage has some thrip tolerance. Approximate Seeds Per Gram - 280. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$3.90	<u>113 gr</u> \$8.40	<u>1 lb</u> \$22.50				
Parsley Hamburg Rooted		85 days. Principally grown for the parsnip like root of white flesh. Used for flavouring soups and stews. Slender roots are 15 cm (6") and longer, and 5 cm (2") thick at the neck. Stores well over winter. Approximate Seeds Per Gram - 750. Seeding Rate - 20 grams per 100 ft row, or 1.4 kg per acre.	<u>28 gr</u> \$5.40	<u>113 gr</u> \$12.30	<u>1 lb</u> \$32.95	<u>5 lbs (per lb)</u> \$28.10			
Parsley Moss Double Curled		70 days. Fairly tall, bright green with very finely cut and curled leaves. Most popular variety for garnishing and flavouring. Parsley is also an excellent addition to rice, bean and pasta salads. The plants are very decorative in gardens and very productive. Approximate Seeds Per Gram - 750. Seeding Rate - 20 grams per 100 ft row, or 1.4 kg per acre.	<u>28 gr</u> \$3.10	<u>113 gr</u> \$6.25	<u>1 lb</u> \$15.25	<u>5 lbs (per lb)</u> \$12.90			
Parsnips Harris Model		110 days. Medium early variety producing roots 30 - 40 cm (12 - 15") long with a relatively hollow crown. Flesh is white, fine textured with a small core. Remarkably free of side roots. Longer and slimmer than Hollow Crown. Approximate Seeds Per Gram - 280. Seeding Rate - 10 to 20 grams per 100 ft row, or 1.5 kg per acre.	<u>28 gr</u> \$3.65	<u>113 gr</u> \$6.45	<u>227 gr</u> \$10.20	<u>1 lb</u> \$15.55	<u>5 lbs (per lb)</u> \$12.70	<u>25 lbs (per lb)</u> \$10.95	
Parsnips Hollow Crown		100 - 120 days. Produces large roots 25 - 30 cm (10 - 12") long and 8 cm (3") wide at the shoulder with a hollow crown. A heavy yielder with a good sweet flavour after being frozen in the ground. Approximate Seeds Per Gram - 280. Seeding Rate - 10 to 20 grams per 100 ft row, or 1.5 kg per acre.	<u>28 gr</u> \$3.65	<u>113 gr</u> \$6.45	<u>227 gr</u> \$10.20	<u>1 lb</u> \$15.55	<u>5 lbs (per lb)</u> \$12.70	<u>25 lbs (per lb)</u> \$10.95	
Pea Dwarf Gray Sugar (Edible Pod)		65 days. Vines 65 cm (26"), Pods 5-8 cm (2-3"). Resistant to Fusarium wilt. Plants small, slender, and medium green with mauve blossoms. Single and double edible pods. Straight semi-pointed, light green. Seed small, round, smooth and mottled. Delicious raw in salads, or use in stir-fry. Very productive. Approximate Seeds Per Gram - 4 - 6. Seeding Rate - 900 grams per 100 ft row, or 35 to 55 kg per acre.	<u>227 gr</u> \$3.30	<u>1 lb</u> \$4.50	<u>5 lbs (per lb)</u> \$3.10	<u>25 lbs (per lb)</u> \$2.30	<u>50 lbs (per lb)</u> \$1.75		
Pea Dwarf Snap Pea - Cascadia		58 days. An earlier, compact bush version of traditional Sugar Snap. Vines average 60 cm (24"). Pods averaging 7 cm (3"). A good row crop alternative to Sugar Snap. Crisp and juicy. Eat pod and all, raw, at any stage. Approximate Seeds Per Gram - 4 - 6. Seeding Rate - 900 grams per 100 ft row, or 35 to 55 kg per acre.	<u>227 gr</u> \$3.40	<u>1 lb</u> \$4.60	<u>5 lbs (per lb)</u> \$3.50	<u>25 lbs (per lb)</u> \$2.40	<u>50 lbs (per lb)</u> \$2.35		
Pea Green Arrow		65 days. Pods are 10 cm (4") long, set high on the vine for easy picking, double podded, with 9-11 sweet flavoured peas per pod. High yielding, strong vines, are primarily double podded and resistant to downy mildew as well as Fusarium wilt. Grows to 70 cm (28") tall. Recommended for freezing and fresh eating. Approximate Seeds Per Gram - 4 - 6. Seeding Rate - 900 grams per 100 ft row, or 35 to 55 kg per acre.	<u>227 gr</u> \$3.30	<u>1 lb</u> \$4.50	<u>5 lbs (per lb)</u> \$3.25	<u>25 lbs (per lb)</u> \$2.40	<u>50 lbs (per lb)</u> \$1.61		
Pea Homesteader-Lincoln		65 days. Each season enhances the reputation and increases the popularity of this pea. Height about 75 cm (2.5'). Pods are 8 cm (3"), slightly curved and contain 8-9 peas of medium size and exceptional sweetness and quality. Produces well, even in hot weather. Recommended for freezing. Approximate Seeds Per Gram - 4 - 6. Seeding Rate - 900 grams per 100 ft row, or 35 to 55 kg per acre.	<u>227 gr</u> \$3.30	<u>1 lb</u> \$4.50	<u>5 lbs (per lb)</u> \$3.25	<u>25 lbs (per lb)</u> \$2.10	<u>50 lbs (per lb)</u> \$1.61		
Pea Improved Laxton's Progress		55 days. Matures earlier than Laxton's Progress. 10 cm (4.5") Pods contain seven to nine large wrinkled peas of exceptional quality. Vine is dwarf, 40-45 cm (16-18"). The best early main crop variety. Recommended for freezing. Approximate Seeds Per Gram - 4 - 6. Seeding Rate - 900 grams per 100 ft row, or 35 to 55 kg per acre. ***Limited Supply in 2005 due to Crop Failure *****	<u>227 gr</u> \$3.30	<u>1 lb</u> \$4.50	<u>5 lbs (per lb)</u> \$3.25	<u>25 lbs (per lb)</u> \$2.30	<u>50 lbs (per lb)</u> \$1.70		
Pea Little Marvel		63 days. Vines 43 cm (17"), pods 8 cm (3"), single and double. Dark green, blunt, plump, well filled with 7-9 peas. Seed medium size, light green. Valuable for home garden and early shipping. Recommended for freezing. Approximate Seeds Per Gram - 4 - 6. Seeding Rate - 900 grams per 100 ft row, or 35 to 55 kg per acre.	<u>227 gr</u> \$3.30	<u>1 lb</u> \$4.50	<u>5 lbs (per lb)</u> \$3.25	<u>25 lbs (per lb)</u> \$2.30	<u>50 lbs (per lb)</u> \$1.70	<u>100 lbs (per lb)</u> \$1.65	<u>500 lbs (per lb)</u> \$1.55
Pea Pole Sugar Snap®		70 days. Voted all -time First Place Vegetable Winner in the AAS survey of home gardeners. Pods are round, slightly curved, medium green, 6-8 cm (2.5 to 3") long, thick and fleshy. Sweet, crunchy, crisp, and delicious when picked fully mature. Eaten raw in salads, or cooked like snow peas. Also can be shelled. Vigorous vines grow to 1.8 m (6') or more and require strong support. Resistant to Pea Wilt. Popular item at produce stands and U-pick operations. Approximate Seeds Per Gram - 4 - 6. Seeding Rate - 900 grams per 100 ft row, or 35 to 55 kg per acre.	<u>227 gr</u> \$4.45	<u>1 lb</u> \$6.35	<u>5 lbs (per lb)</u> \$5.75	<u>25 lbs (per lb)</u> \$5.15	<u>50 lbs (per lb)</u> \$4.65		

2005 Bulk Seed Catalogue

Vegetables

Pepper California Wonder		72 days from transplant. Special Mosaic Resistant stock. Thick-walled, blocky fruits 10 cm long, and 9 cm across (4 x 3.5"). 3-4 lobes. Smooth glossy green peppers borne upright on 60-75 cm (24-30") plants. Peppers will turn red if left to fully mature. Excellent for stuffing and recommended for freezing. Approximate Seeds Per Gram - 160. Seeding Rate - 7 grams per 100 ft row, or 1 kg per acre.	<u>14 gr</u> \$6.80	<u>28 gr</u> \$10.05	<u>113 gr</u> \$22.45	<u>227 gr</u> \$42.40	<u>1 lb</u> \$73.40
Pepper Jalepèno		70 days. 'M' type. Produces numerous dark green peppers, 8 cm (3") long and averaging 4 cm (1.5") in diameter. Fruit turn red at maturity. The required pepper for salsas and Mexican dishes. Approximate Seeds Per Gram - 160. Seeding Rate - 7 grams per 100 ft row, or 1 kg per acre.	<u>14 gr</u> \$5.72	<u>28 gr</u> \$8.40	<u>113 gr</u> \$18.70	<u>227 gr</u> \$32.60	<u>1 lb</u> \$61.25
Pepper Long Red Cayenne		72 days from transplant. Often curled and twisted, this very hot pepper grows 13-15 cm long, and 1 cm across (5-6" x 0.5") tapering to a point. Fruits are borne pendant on 60 to 75 cm (24-30") tall plants. Dark green colour changes to a bright red at maturity. Popular for pickling and seasoning. Approximate Seeds Per Gram - 160. Seeding Rate - 7 grams per 100 ft row, or 1 kg per acre.	<u>14 gr</u> \$4.95	<u>28 gr</u> \$7.35	<u>113 gr</u> \$16.45	<u>227 gr</u> \$29.75	<u>1 lb</u> \$53.75
Pepper Sweet Banana		72 days. Sweet Hungarian type, 14 -15 cm (5.5-6") long and pointed. Light yellow turning bright red. Delicious fried. Very prolific. Approximate Seeds Per Gram - 160. Seeding Rate - 7 grams per 100 ft row, or 1 kg per acre.	<u>14 gr</u> \$5.95	<u>28 gr</u> \$8.90	<u>113 gr</u> \$18.80	<u>227 gr</u> \$30.40	<u>1 lb</u> \$61.65
Pepper Yellow Hungarian Hot Wax		70 days. Sturdy 60 cm (24") plants grow well in marginal conditions. Waxy canary yellow fruits 15-20 cm long, 5 cm across (6-8" x 2"). Hot flavoured pepper turns bright orange when ripe. Excellent for pickling and fresh use. Approximate Seeds Per Gram - 160. Seeding Rate - 7 grams per 100 ft row, or 1 kg per acre.	<u>14 gr</u> \$5.95	<u>28 gr</u> \$8.90	<u>113 gr</u> \$18.80	<u>227 gr</u> \$30.40	<u>1 lb</u> \$61.65
Pumpkin Atlantic Giant		120 days. This strain was developed for World Record Contests. Has produced fruits up to 272 kg (600lbs) and 3 m (10') in circumference. Nice orange color. Approximate Seeds Per Gram - 3 to 5. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>14 gr</u> \$12.30	<u>28 gr</u> \$17.05	<u>113 gr</u> \$36.25	<u>1 lb</u> \$118.58	
Pumpkin Connecticut Field		115 days. Large smooth orange-yellow grows 20-25 cm (8-10") in diameter. Used extensively for canning. Excellent for pies and stock feed, and also used for Jack O' lanterns. Grown large in corn fields. 7 - 11 kg (15 - 25lbs). Approximate Seeds Per Gram - 3 to 5. Seeding Rate - 30 grams per 100 ft row, or 1.8 kg per acre.	<u>28 gr</u> \$4.30	<u>113 gr</u> \$9.40	<u>227 gr</u> \$14.95	<u>1 lb</u> \$20.20	<u>5 lbs (per lb)</u> \$15.40
Pumpkin Jack O' Lantern		110 days. Fruits are round to oval shapes, 4-7 kg (10-15 lbs). Skin is bright orange, smooth, firm and thick. Excellent for carving. Approximate Seeds Per Gram - 3 to 5 Seeding Rate - 7 grams per 100 ft row, or 1 kg per acre.	<u>28 gr</u> \$4.80	<u>113 gr</u> \$10.45	<u>227 gr</u> \$14.95	<u>1 lb</u> \$21.25	<u>5 lbs (per lb)</u> \$15.40
Pumpkin Small Sugar Pie		115 days. Small and round, flattened at the ends and slightly ribbed. Skin deep orange-yellow and flesh very thick and of high quality. Excellent for pies. 3 kg (7lbs). Approximate Seeds Per Gram - 3 to 5 Seeding Rate - 7 grams per 100 ft row, or 1 kg per acre.	<u>28 gr</u> \$4.80	<u>113 gr</u> \$10.45	<u>227 gr</u> \$14.75	<u>1 lb</u> \$21.25	<u>5 lbs (per lb)</u> \$15.40
Radish Champion		25 days. Globe shaped, dark scarlet, firm fleshed. Tops are medium in length. Exceptionally strong and bunch well. Holds well in shipping and remains crisp and firm for a long time. They can be grown large without becoming pithy, and have a mild flavour. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 4.5 kg per acre.	<u>28 gr</u> \$2.50	<u>113 gr</u> \$3.65	<u>1 lb</u> \$5.95	<u>5 lbs (per lb)</u> \$4.95	<u>25 lbs (per lb)</u> \$4.65
Radish Cherry Belle		21 days. Globe shaped, bright cherry red. Flesh very firm and crisp. Short tops, keeps firm for long period. Fine for forcing and home garden use. Excellent for bunching or cello packaging. Best if it matures before or after hottest part of summer. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 4.5 kg per acre.	<u>28 gr</u> \$2.50	<u>113 gr</u> \$3.65	<u>1 lb</u> \$5.95	<u>5 lbs (per lb)</u> \$4.95	<u>25 lbs (per lb)</u> \$4.65
Radish Comet		25 days. Bright scarlet globes. Flesh extra firm and crisp even at late maturity. An early small radish. Medium to short tops. Keeps solid longer than most early types, making it excellent for commercial use. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 4.5 kg per acre.	<u>28 gr</u> \$2.50	<u>113 gr</u> \$3.65	<u>1 lb</u> \$5.95	<u>5 lbs (per lb)</u> \$4.95	<u>25 lbs (per lb)</u> \$4.65

Radish French Breakfast		25 days. Roots oblong and blunt with small tap roots. Skin rose-scarlet with a white tip. Flesh white and tender. Tops medium sized. Popular for home garden, but does not stand long before becoming pithy. Suitable for forcing under glass. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 4.5 kg per acre.	28 gr \$2.50	113 gr \$3.65	1 lb \$5.95	5 lbs (per lb) \$4.95	25 lbs (per lb) \$4.65	
Radish Gourmet Mixed Radish		A combination of many varieties. Especially selected so you can enjoy our entire radish selection. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 4.5 kg per acre.	28 gr \$2.50	113 gr \$3.65	1 lb \$5.95	5 lbs (per lb) \$4.95	25 lbs (per lb) \$4.65	
Radish Hailstone Round White		25 days. Roots are round with a pure white skin and flesh. Strong tops. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 4.5 kg per acre.	28 gr \$2.50	113 gr \$3.65	1 lb \$5.95	5 lbs (per lb) \$4.95	25 lbs (per lb) \$4.65	
Radish Long Black Spanish		56 days. Winter variety. Roots are round, inclined to top shape, and 8-10 cm (3-4") in diameter. Nearly black in colour, with crisp white flesh. Good for storing. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 4.5 kg per acre.	28 gr \$2.50	113 gr \$3.65	1 lb \$5.95	5 lbs (per lb) \$4.95	25 lbs (per lb) \$4.65	
Radish Scarlet Globe		23 days. Bright scarlet with pure crisp white flesh, this variety is excellent for market gardens. It has a very thin tap root, and is perfectly globe shaped. Prefers sandy soils. Fine bunching variety. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 4.5 kg per acre.	28 gr \$2.50	113 gr \$3.65	1 lb \$5.95	5 lbs (per lb) \$4.95	25 lbs (per lb) \$4.65	
Radish Sparkler (White Tip)		25 days. Roots almost round, skin bright scarlet red with white tip. Flesh clear white, tender and very crisp. Tops medium. One of the best market varieties. Very popular with the home gardener. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 4.5 kg per acre.	28 gr \$2.50	113 gr \$3.65	1 lb \$5.95	5 lbs (per lb) \$4.95	25 lbs (per lb) \$4.65	
Radish White Icicle		30 days. The best early white variety. Tops are small, roots are long and tapered. Very white throughout, with a mild sweet flavour. Brittle as ice, 13-15 cm (5-6") long. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 4.5 kg per acre.	28 gr \$2.50	113 gr \$3.65	1 lb \$5.95	5 lbs (per lb) \$4.95	25 lbs (per lb) \$4.65	
Spinach Bloomsdale (Longstanding)		48 days. Plant vigorous, erect, compact and uniform. Leaves very thick, medium large with curved tips. Deeply savoyed with rich dark glossy green colour. Tender and of excellent quality. Stands several days in hot weather before bolting. Recommended for freezing. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 5.5 to 11 kg per acre.	28 gr \$2.95	113 gr \$5.80	1 lb \$12.80	5 lbs (per lb) \$10.21	25 lbs (per lb) \$9.95	
Spinach New Zealand or Everlasting		60 days. A large spreading plant with smooth, dark green small triangular leaves that can be harvested continually up to freezing. Thrives in any warm, dry climate. Seeds are large and nut-like. Approximate Seeds Per Gram - 100. Seeding Rate - 30 grams per 100 ft row, or 5.5 to 11 kg per acre.	28 gr \$4.15	113 gr \$7.35	1 lb \$16.30	5 lbs (per lb) \$11.75		
Squash Buttercup		90 days. A winter squash with turban shaped fruits, 11-17 cm (4.5-7") across ranging 1.3 -1.8 kg in weight (3-4 lbs). Thick orange flesh cooks dry and sweet with a rich flavour. Skin is deep green with silvery green stripes. An excellent keeper. Approximate Seeds Per Gram - 8 to 10. Seeding Rate - 30 grams per 100 ft row, or 1.4 to 1.8 kg per acre.	28 gr \$3.15	113 gr \$6.20	227 gr \$10.60	1 lb \$19.20	5 lbs (per lb) \$14.95	25 lbs (per lb) \$14.30
Squash English Vegetable Marrow		70 days. Bush type. A favorite variety. Fruits are oblong and creamy white. Start seeds out-of-doors after danger of frost, in a warm sunny location with enriched soil. Flesh is pale green, mild and sweet. Start harvesting at 20 cm (8") length. Approximate Seeds Per Gram - 8 to 10. Seeding Rate - 30 grams per 100 ft row, or 1.4 to 1.8 kg per acre.	28 gr \$4.50	113 gr \$9.40	227 gr \$12.90	1 lb \$20.40	5 lbs (per lb) \$16.60	
Squash Green Hubbard		110 days. This elongated 30 x 20 cm (12 x 8") squash has a tough green rind and thick orange flesh that is exceptionally sweet. Fruit weigh 4-5 kg (10-12 lbs). Approximate Seeds Per Gram - 8 to 10. Seeding Rate - 30 grams per 100 ft row, or 1.4 to 1.8 kg per acre.	28 gr \$3.25	113 gr \$6.25	227 gr \$10.60	1 lb \$19.20	5 lbs (per lb) \$16.10	

"The Seed House That Service Built"

2005 Bulk Seed Catalogue

Squash Vegetable Spaghetti		75 days. The 23-25 cm (9-10") bright yellow fruits contain a spaghetti-like pulp which makes a delicious vegetable cooked and served from nature's own package. Season with salt, butter, tomato sauce or mayonnaise. May also be used like a summer squash when small, preparing like eggplant. Grows like squash. May be trellised where space is limited. Approximate Seeds Per Gram - 8 to 10. Seeding Rate - 30 grams per 100 ft row, or 1.4 to 1.8 kg per acre.	28 gr \$2.50	113 gr \$4.50	227 gr \$7.90	1 lb \$14.10	5 lbs (per lb) \$11.20	25 lbs (per lb) \$10.50	
Squash Zucchini Dark Green Hybrid		55 days. A dark green skin that gardeners prefer. Open habit and early deep green glossy fruits are best harvested when 15 cm (6") long. Attractive fruits are uniform, smooth, and cylindrical. Easy to pick from single stemmed vigorous plants. Very Productive. Approximate Seeds Per Gram - 10 - 15. Seeding Rate - 60 grams per 100 ft row, or 1.8 to 3 kg per acre.	28 gr \$2.50	113 gr \$4.50	227 gr \$7.90	1 lb \$13.95	5 lbs (per lb) \$11.20	25 lbs (per lb) \$10.50	
Swiss Chard Lucullus		55 days. Productive throughout the entire summer. Large tender leaves are light green and very crumpled. Retains quality in hot weather. Popular for boiled or steamed greens, and excellent for freezing. Approximate Seeds Per Gram - 35. Seeding Rate - 50 grams per 100 ft row, or 6 kg per acre.	28 gr \$2.85	113 gr \$5.35	1 lb \$8.95	5 lbs (per lb) \$8.05			
Swiss Chard Red		55 days. Upright plant is 20 - 24 " tall. Large, dark green leaves are very crinkled. Broad stems and leaf veins are deep red. Can be used fresh or cooked and freezes well. Approximate Seeds Per Gram - 35. Seeding Rate - 50 grams per 100 ft row, or 6 kg per acre.	28 gr \$5.70	113 gr \$11.25	1 lb \$17.05				
Tomato Better Boy		72 days. Very popular bedding plant variety. Bright red, globe shaped fruits are firm with bright red meaty interiors growing up to 400 grams. Vigorous plants afford good protection to fruits. Resistant to wilts and nematodes. Stores and ships well. Approximate Seeds Per Gram - 390. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	0.25 gr \$6.25	0.50 gr \$11.25	1 gr \$21.10	2 gr \$37.20	4 gr \$69.44		
Tomato Bonnie's Best		71 days. Good producer with old fashioned flavour. Large fruits average 200 g (8 oz), deep red and borne in clusters. Continuous production. Approximate Seeds Per Gram - 390. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	2 gr \$5.95	4 gr \$10.40	7 gr \$15.60	14 gr \$25.40	28 gr \$41.20	113 gr \$131.50	227 gr \$210.20
Tomato Bush Beefsteak		67 days. Strong vigorous compact bush and very sturdy. Fruits are round, smooth, bright red with a solid interior and few seeds. Very firm and crack resistant. Excellent yielder is a popular market and home garden variety for canning and slicing. Average fruit size 200 g (8 oz). Approximate Seeds Per Gram - 390. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	4 gr \$3.50	7 gr \$5.50	14 gr \$9.25	28 gr \$14.15	113 gr \$43.40	227 gr \$74.65	1 lb \$127.17
Tomato Campbell 1327		69 days. Fruit are a flattened globe shape growing to 200 g (8 oz). Processing and Canning type for short growing season. Bright red with good interior colour Maximum yield is achieved through close plant spacing. Approximate Seeds Per Gram - 390. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	4 gr \$3.50	7 gr \$4.95	14 gr \$8.30	28 gr \$14.20	113 gr \$42.40	227 gr \$84.75	1 lb \$130.50
Tomato Celebrity Hybrid		70 days. Celebrity hybrid has yielded 85,710 marketable fruits/acre, the most of any variety. The average fruit size was 9.2 oz. Celebrity is a top choice for fresh market and home gardens. It won an All-American award and has certainly been the tomato of the decade when it comes to overall performance. Excellent flavour. Approximate Seeds Per Gram - 120 - 130. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	0.25 gr \$6.25	0.50 gr \$10.95	1 gr \$11.40	2 gr \$18.95	4 gr \$39.90	7 gr \$59.80	
Tomato Floridade		77 days. Bush type with 125 g (5 oz) smooth deeply globed fruits. A good shipper. Requires staking or caging. Tolerance to VF1, VF2, ST and ASC. Approximate Seeds Per Gram - 390. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	4 gr \$3.50	7 gr \$5.50	14 gr \$9.25	28 gr \$14.15	113 gr \$43.40	227 gr \$74.65	1 lb \$127.17
Tomato Manitoba		60 days. Bush. Amazing qualities and high yields of firm, sweet, red-flesh tomatoes up to 100 g (4 oz). Good for canning or fresh market. Will set and hold fruit at lower temperatures than others of the same size. Approximate Seeds Per Gram - 390. Seeding Rate - 15 grams per 100 ft row.	7 gr \$5.95	14 gr \$10.40	28 gr \$15.60	113 gr \$53.70	227 gr \$95.70	1 lb \$174.00	
Tomato New Yorker		66 days. Fruit 6-8 oz. Vigorous growth. Heavy yielder. Approximate Seeds Per Gram - 390. Seeding Rate - 15 grams per 100 ft row.	0.50 gr \$2.50	1 gr \$3.65	2 gr \$6.75	4 gr \$11.60	7 gr \$19.95		

2005 Bulk Seed Catalogue

Vegetables

Tomato Patio F1		70 days. Patio is a popular container tomato. 100 g (3-4 oz) smooth fruits are produced on compact plants with dark green foliage. Patio is ideal for small gardens, pots and tubs. Can be staked. Patio seed is de-fuzzed for 8 - 10% more seed per gram. Approximate Seeds Per Gram - 390. Seeding Rate - Individual pots.	<u>0.25 gr</u> \$5.45	<u>0.50 gr</u> \$10.20	<u>1 gr</u> \$18.15	<u>2 gr</u> \$31.90	<u>4 gr</u> \$57.20	<u>7 gr</u> \$81.35		
Tomato Roma		75 days. Bright red plum-shaped fruits with very meaty interiors and few seeds. Compact plants are resistant to wilts. Heavy yields. Excellent for paste or whole pack. Approximate Seeds Per Gram - 390. Seeding Rate - 15 grams per 100 ft row, or 0.5 kg per acre.	<u>7 gr</u> \$3.50	<u>14 gr</u> \$4.85	<u>28 gr</u> \$7.80	<u>113 gr</u> \$22.75	<u>227 gr</u> \$39.95	<u>1 lb</u> \$74.25		
Tomato Super Fantastic		70 days. Pole. Yields a globe-shaped fruit with smooth skin. Will continue producing throughout the season. Some disease resistance. 8 - 10 oz fruits. Approximate Seeds Per Gram - 390. Seeding Rate - Individual pot or greenhouse.	<u>0.25 gr</u> \$9.30	<u>0.50 gr</u> \$17.25	<u>1 gr</u> \$27.90	<u>2 gr</u> \$46.50	<u>4 gr</u> \$74.40	<u>7 gr</u> \$97.65	<u>14 gr</u> \$174.40	<u>28 gr</u> \$279.00
Tomato Sweetie (Sweet 100 Hybrid)		68 days. Long multiple branched clusters of up to 100 red fruits 2.5 cm (1") round, tangy and sweet. High vitamin C content. Must be staked for best growth.
